

PUBLIC SAFETY ALERT

Overgrown Trees and Shrubs are a Public Safety Hazard

Many streets and sidewalks are beautifully lined with trees and shrubs, enhancing our community. As the season changes it is time to prune trees and shrubs to prepare for spring growth.

Trimming Guide

Overgrowth is Hazardous!

Sidewalks and streets with overgrown vegetation can:

- Force pedestrians to walk in the street
- Present physical hazards to pedestrians and vehicles
- Block visibility at intersections
- Force taller vehicles to drive down the center of the road

Low branches damage and block:

Emergency Vehicles School Buses Garbage & Recycling pickup
City Vehicles / Street Sweepers Mail Delivery Street signs & Lights
